

Participate in the lab or online.

3D-print

NEW TIME!

13.30-15.30
Wednesday

16 September
Videum Science Park
Framtidsvägen 14

Invitation

An introductory insight into additive manufacturing for small and medium-sized enterprises

An introductory workshop in additive manufacturing. Afterwards you will have an overview of the technologies and the integration with different industrial sectors. The workshop will also provide an understanding of the different 3D printing technologies suitable for different applications.

CONTRIBUTOR **Sami Thawaba**, Videum Science Park
AUDIENCE representatives of local industry, small and medium-sized enterprises, academia and research
DATE and TIME September 16th from 13:30 to 15:30
PLACE Videum Innovation Lab at Videum Science Park or online
REGISTRATION latest September 13th
at www.videum.se/biljettkiosken
Limited number of seats. (10 in the lab, 20 online)
We offer fika for the one who participate in the lab.

The workshop will be in english.

Welcome!

Interested on getting a closer look at the 3D-printers in Videum Innovation Lab, discuss your ideas about 3D-printing and maybe print an item? Please contact us for an individual session with Sami.
